Default assumptions.

In stable growth, I will assume that your firm will have a cost of capital similar to that of typical mature companies (riskfree rate + 4.5%)	
Do you want to override this assumption	yes
If yes, enter the cost of capital after year 10 =	0.075
I will assume that your firm will earn a return on capital equal to its cost of capital after year 10. I am assuming that whatever competitive advantages you have today will fade over time.	
Do you want to override this assumption	yes
If yes, enter the return on capital you expect after year 10	0.1
I will assume that your firm has no chance of failure over the foreseeable future.	
Do you want to override this assumption	yes
If yes, enter the probability of failure =	0.2
What do you want to tie your proceeds in failure to?	V
Enter the distress proceeds as percentage of book or fair value	0.5
I will assume that your effective tax rate will adjust to your marginal tax rate by your terminal year. If you override this assumption, I will leave the tax rate at your effective tax rate.	
Do you want to override this assumption	no
I will assume that you have no losses carried forward from prior years (NOL) coming into the valuation. If you have a money losing company, you may want to override tis.	
Do you want to override this assumption	no
If yes, enter the NOL that you are carrying over into year 1	250.0
I will assume that today's risk free rate will prevail in perpetuity. If you override this assumption, I will change the riskfree rate after year 10.	
Do you want to override this assumption	yes
If yes, enter the riskfree rate after year 10	0.02
I will assume that the growth rate in perpetuity will be equal to the risk free rate. This allows for both valuation consistency and prevents "impossible" growth rates.	
Do you want to override this assumption	no
If yes, enter the growth rate in perpetuity	-0.05
I have assumed that none of the cash is trapped (in foreign countries) and that there is no additional tax liability coming due and that cash is a neutral asset.	
Do you want to override this assumption	no
If yes, enter trapped cash (if taxes) or entire balance (if mistrust)	140000.0
& Average tax rate of the foreign markets where the cash is trapped	0.15
